

ATHARVA SINGH

SOFTWARE ENGINEER | SALESFORCE ADMIN/DEVELOPER
+91 95698 44597 | satharva709@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech CSE (AI) graduate with hands-on experience in Java and Salesforce admin/development, including OOP, Collections Framework, and REST-based application logic. Built projects spanning a Java Student Management System, a Salesforce CRM using Apex and LWC, and a Python/OpenCV drowsiness detection system. Experienced in development, deployment, debugging, root-cause analysis, and issue resolution, with a customer-first approach to problem-solving. Seeking an entry-level Software Engineer role to apply this technical foundation and grow across the stack.

VIRTUAL EXPERIENCE

JP Morgan Chase & Co. Software Engineering Virtual Internship - Forage

- Built REST APIs using Java, Spring Boot, and Kafka with SQL database integration, including JPA-based data persistence.

Walmart Advanced Software Engineering Job Simulation - Forage

- Applied Java, Python, and UML modeling to design data structures and database architecture.

Deloitte Technology Job Simulation - Forage

- Performed data analysis and visualization using Python, covering networking and web security basics.

EDUCATION

Bachelor of Technology - Computer Science (AI) | CGPA: 7.57/10

AKTU, Lucknow

2022-2026

Intermediate - Class XII

CBSE

2022

High School - Class X

CBSE

2020

TECHNICAL SKILLS

Programming Languages: Java, SQL, Python, Javascript

Core CS Fundamentals: DSA, OOP Design, Exception Handling, Networking Basics, REST API Concepts, Databases

Salesforce Technologies: Apex, Lightning Web Components, SOQL, SOSL, Salesforce CLI, Developer Console, Workbench, Sales Cloud, Einstein GPT, Agentforce, Flow Builder

Web Technologies: HTML5, CSS3, Bootstrap4

AI/ML: NumPy, Pandas, Mediapipe, Matplotlib, OpenCV, Computer Vision, Real time data processing

AI-assisted Development: GitHub Copilot, Cursor, Codex, Claude (used for code review, debugging, documentation, and productivity)

Developer Tools: VS Code, Eclipse IDE, IntelliJ IDEA

Version Control: Git, Github

PROJECTS

Student Management System with ChatBot | Java, OOP, Collections Framework

May 2026 - June 2026

- Developed a Java-based system managing 500+ student records across a modular multi-class architecture.
- Applied OOP with Collections Framework, Exception Handling, and File Handling for error-resilient data management.
- Integrated a Java chatbot reducing average student query resolution time by 60%.
- Debugged and resolved data-handling edge cases across modules, documenting fixes to maintain system stability.

Customer Lead Tracker | Salesforce CRM | Apex, LWC, SOQL, Salesforce CLI

Feb 2026 - May 2026

- Built a Salesforce CRM covering 3 business modules using Apex triggers, LWC, SOQL, and Flow Builder.
- Developed interactive LWC features reducing manual data entry by 40%.
- Deployed across sandbox and production orgs via Salesforce CLI with zero post-deployment defects.
- Reproduced and resolved data validation issues during testing, documenting root causes to prevent recurrence.

Drowsiness Detection System | Python, OpenCV, NumPy, Pandas, Matplotlib

Mar 2025 - Jan 2026

- Built a real-time driver drowsiness detection system (5-member team) using 64 facial landmarks for eye-closure monitoring.
- Achieved 95%+ eye-closure detection accuracy using 64-point dlib facial landmark model under varied lighting conditions.
- Reduced alert response latency to under 200ms through optimized frame processing and threshold tuning.
- Diagnosed and fixed latency and accuracy issues through iterative testing, documenting tuning parameters for reproducibility.

CERTIFICATIONS

- | | |
|--|---------------|
| Java (Introduction & Intermediate) - Sololearn | June, 2026 |
| Oracle Java Foundations - Oracle | May, 2026 |
| Salesforce Ranger Rank (100+ Badges, 50,000+ Points) | March, 2026 |
| Salesforce Agentblazer Champion Badge - Salesforce | March, 2026 |
| Programming Fundamentals with Python - Infosys Springboard | June 2024 |
| Complete Python Programming - Udemy | October, 2023 |
